

# Portland OR Disaggregated Seismic Hazard for 0.2-second Spectral Acceleration, 0.855 g

PE = 2% in 50 years. Hazard radius 250 km, DeltaR=10 km

Mw: Binned average (weighed by exceedance contributions)

M8.3, red. M9, pink. Minor plot revisions Aug 3, 1999.

Local seismicity predominant hazard for 5 Hz PSA.
